```java
//save by Abc.java
package first_pkg;
public class Abc
{
        public void display()
        {
         System.out.println("Hello, I am from Abc Class");
        }
}
//save by Xyz.java

package second_pkg;
import first_pkg.*;
class Xyz
{
    public static void main(String args[])
    {
        Abc a1 = new Abc();
        a1.display();
    }
}
```

OUTPUT:-

Hello, I am from Abc Class
